(b) if so, the findings of these studies;

(c) if not, Government's plans to undertake such studies; and

(d) the steps being taken to reduce rural underemployment?

THE MINISTER OF RURAL AREAS AND EMPLOYMENT (SHRI K. YERRANNAIDU): (a) Two round of concurrent evaluations in respect of Jawahar Rozgar Yojana (JRY) were made by the reputed & independent research institutions for the period January-December, 1992 and May, 1993 to June, 1994. The evaluation of Prime Minister's Rozgar Yojana (PMRY) is under execution. No evaluation study has been conducted in respect of EAS.

(b) The findings of the first and second rounds of concurrent evaluation show that 4 and 11 mandays of employment were received by a worker during the reference period i.e. the last 30 days preceding the date of the respective surveys.

(c) The evaluation of PMRY is under execution. The Ministry of Rural Areas & Employment has requested the Planning Commission to undertake the evaluation study in respect of EAS.

(d) Under-employment and unemployment are sought to be reduced through implementation of various rural development schemes including JRY and

EAS. Under EAS and JRY additional gainful, employment is sought to be provided during the lean agricultural season in manual work to all able-bodied adults in the rural areas who are in need and desirous to work. The objective of the PMRY to provide employment to more than one million persons by setting up on seven lakhs micro-enterprises by the educated un-employed youth.

Problem of Potable Water

94. PROF. RAM KAPSE: Will the Minister of RURAL AREAS AND EMPLOYMENT be pleased to state:

(a) whether Government are aware that acute shortage of potable water is being felt all over the country;

(b) whether Government have inquired into the causes of this shortage; and

(c) if so, the details of the causes and action taken by Government to remove them?

THE MINISTER OF RURAL AREAS AND EMPLOYMENT (SHRI K. YERRANNAIDU): (a) Shortage of potable drinking water is being felt in the 'Not Covered' and 'Partially Covered' habitations in the country.

(b) and (c) The causes were identified during the survey of status of drinking water supply in rural habitations during 1991—1994. The main reasons are the following:

— Sources going permamently defunct
— Expiry of the design life of the system.
— Poor operation and maintenance
— Emergence of new habitations
— Habitations served by private sources and not having any public source classified as not covered.

Safe drinking water facilities are being provided by the States under the Minimum Needs Programme the Centrally Sponsored Accelerated Rural Water Supply Programme including Sub-Missions and under the Basic Minimum Services.
